

DRNACH INTERNATIONAL

2019 ANNUAL REPORT

Dear Friends of Drnach International,

As founder of the organization, I hope you take to heart my sincere gratitude for the outpouring of support this past year. I have had the privilege to watch what was once a fleeting idea turn into a charitable organization with open and honest community partners and solid supporters.

In 2019, we exceeded our expectations by creating a website and logo, as well as financially supporting a trimester at Divine Kids Academy (DKA), and hiring a local carpenter to build 80 desks for children at DKA to address the desk shortage at the school. These actions contribute to a more comfortable learning environment for our future global leaders.

Thank you for your support. It is because of our dedicated and caring partners we have been successful in our first year. Our team is looking forward to sharing our 2020 goals and growth with you.

With gratitude,

Grace Drnach

PROJECT SPOTLIGHT

Mid year, the founder of DKA and our community partner, Kwame Appiah-kubi, communicated an urgent need for desks due to the growing student population. At that time, 4-5 students were sharing one desk, which are meant for 2 students. This distracted from the learning environment.

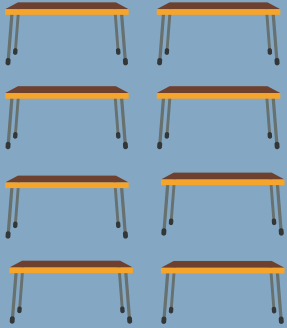

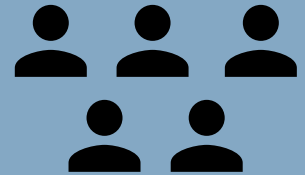

Because of the surplus in contributions during our first year, we were able to hire a local carpenter in Ghana to build 80 desks. Children are no longer crowded in the classroom and both teachers and children are able to focus more in the learning environment. Visit our blog section in our website to read more.

QUANTIFYING THE IMPACT

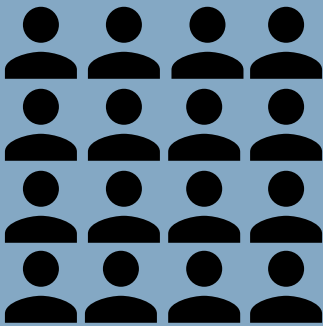

One desk costs approximately \$7.00 USD. There were 4-5 students per desk.

80 desk costs approximately \$560.00 USD This allowed for 2 students per desk.

= 10 desks

160 children benefit from space to work with new desks built, which supports a positive learning environment in the classroom

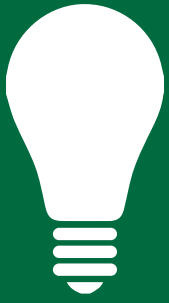

= 10 children

One local carpenter received payment for his craftsmanship, supporting the local Ghanaian economy.
